

BIG RED H.D. FLOOR CLEANER

Contains: 10 g/L Sodium Hydroxide, 6g/L Ammonia, 50 g/L Alkaline Salts,
2-Butoxyethanol < 10% w/v

Big Red H.D. is the solution to those problem cleaning jobs where the other multi purpose cleaners fail to perform.

Big Red H.D. will operate in the heaviest of conditions, rapidly penetrating heavy grease, soap scum, oil, carbon deposits, waxes and dirt accumulations. The incorporation of ammonia distinctly raises its efficiency on tough jobs including removal of sealers and polishes.

Big Red H.D. can be used in steam cleaning, high pressure washing, automatic scrubbers and manual cleaning in clubs, hotels, accommodation and kitchen areas, cement floors, tiles, engines, paths and walkways etc.

Big Red H.D. may prove too strong for certain surfaces e.g. on painted surfaces or waxed floors. The product removes paint and wax with ease unless well diluted. Avoid using on aluminium.

Big Red H.D. Floor Cleaner:

- ✓ Heavy Duty Degreasing Cleaner
- ✓ Cuts through grease and grime on floors
- ✓ Concentrated - Value for money
- ✓ Contains Ammonia
- ✓ Bio-degradable
- ✓ For domestic or commercial use
