

PROFESSIONAL SOLUTIONS

# ACME

## AUTOMATIC DISHWASH MACHINE POWDER

Contains: Sodium Carbonate 10-30%

Acme Auto Dishwash Machine Powder, with its moderate alkaline content, is extremely efficient in the removal of all grease and left over food on plates and utensils.

Acme Auto Dishwash Machine Powder contains just the right amount of chlorine to give hygiene protection to crockery and cutlery, plus bleach out tea and coffee stains from cups and saucers.

### Acme Automatic Dishwash Powder:

- ✓ Specially formulated for effective streak free cleaning
- ✓ Contains built in rinse aids and scale inhibitors
- ✓ Bleaches out tea and coffee stains
- ✓ Gives maximum results in domestic automatic dishwashing machines.
- ✓ Hygienic - Chlorine provides both stain removal and deodorising properties, as well as being a powerful germicide.
- ✓ Bio-degradable

## SPECIALLY FORMULATED FOR EFFECTIVE STREAK FREE CLEANING

### Directions for Use:

In all cases, follow the machine manufacturers instructions and recommendations. Refer to manufacturers recommendations for washing leaded crystal, hand painted china and coloured or plain pots and pans. The hottest water possible should be used for best results. Do not sprinkle powder directly onto dishes etc. In hard water areas or where dishes are heavily soiled, use a little extra powder for best results.

NOTE: Some hand painted china and glass, silver, crystal and anodised products may be affected by washing in automatic dishwash machines. Check manufacturers instructions before washing these articles.
